

## Career VIP Days

Are you **serious** about your career?

**Book an EXCLUSIVE VIP day of coaching on your career.**

Have a day of one to one coaching specifically designed to address YOUR career issue. By concentrating coaching in one day, rather than spreading it over weeks or months, you are able to take action earlier. That means quicker results.

Common topics are

- Forging a new career
- Should I set up a business?
- Career management
- When will I retire and what will I do?

But you choose the agenda

VIP days take place virtually, and last from 9.30 to 5.00, with plenty of tea/coffee breaks. They can also be split into two half days with a price adjustment (half day packages are also available).

All packages include some preparatory work to be done before the session so that we hit the ground running. Additionally, a follow up coaching session of one hour about a month later is included. In between we are available for email support and short phone chats.

We ask for a deposit of 50%, with the balance payable before the day.

This package is not suitable for everyone, so before accepting you we need to know that a VIP Day will benefit you. Email us NOW on [enquiries@redspotcoach.com](mailto:enquiries@redspotcoach.com) to set the ball rolling.

But hurry – we set aside 2 days per month for Career VIP Days, so spaces are limited.

What will it feel like to have **your** career on track?
